

# WORLD SEAFOOD INDUSTRY®

May 17th - 19th 2023  
Expo Guadalajara

Welcome to the International B2B  
Fisheries and Aquaculture Exhibition  
in Mexico

Mexico ranks third as one of the leading countries in the American continent in the fishing industry. Our country produces approximately 2 million tons of fishery and aquaculture products per year with a value of more than \$40 billion pesos annually. Mexico strategically links the most important fishing and aquaculture industries in the world.

The dynamic and competitive fishing and aquaculture sector in Mexico has the first business platform specialized in this field: World Seafood Industry (WSI), the international B2B seafood trade show in Mexico, which arrives in 2023 with an exhibition designed to meet the specific needs of the region.
